

BONGO LOUNGE TABLE

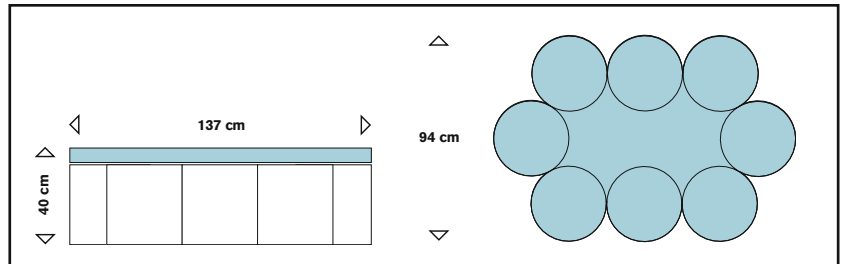

Bongo Lounge Table.

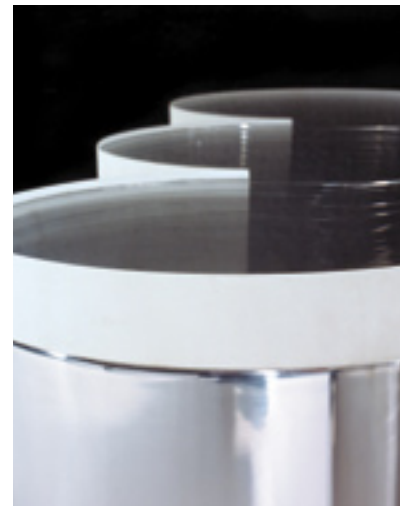

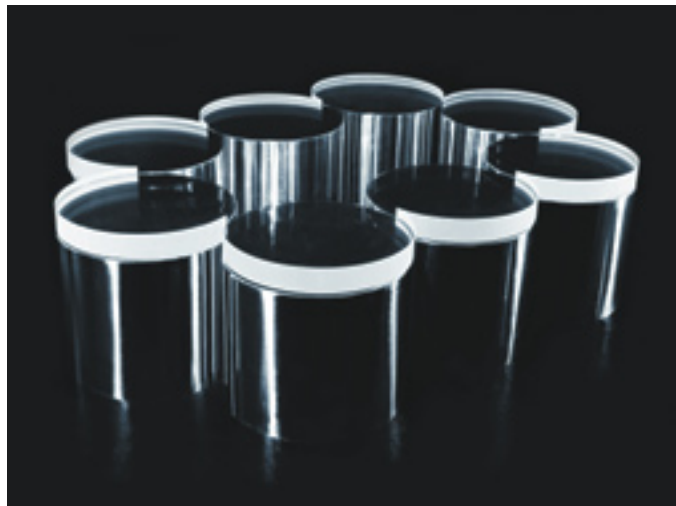

This coffee/lounge table has a striking appearance. It often sets off four different kinds of reactions: Curiosity, Surprise and Confusion and Love. In any given order. The thick acrylic board, with naturally frosted edges from the water cutting, creates a magic effect. Especially at night or in a dark room when the table acts like a luminary as the edges catches light and reflections in the dark. At the risk of using the classic cliché: you have to see it to believe it. Bongo has the contradictions built into all LYX furniture: Heavy, yet light. Futuristic, yet luxurious. Contemporary, yet timeless.

Design: Michael Malmberg, I/IDSA
